

## DVR TIPS

### To record a show:

- Go to guide
- Scroll to show
- Press on ok
- Options will be to the right, as you scroll through the options they will highlight in yellow.
- Press ok on option you would like

### If a show is a series show below are the list of options you will receive:

- Record
- Record Series
- Auto tune
- Series Auto tune
- Add to favorites
- View Channel

### After you choose to record a series, you will receive another list of options:

- Start (amount of time before show starts. Recommend 5 min before)
- Stop (amount of time after show ends. Recommend 5 min before)
- Keep at least
- Record
  - New
  - New & Rerun

### If a show is not a series show below are a list of options you will receive:

- Record
- Auto tune
- Add to favorites
- View channels

### **To Record without using the guide function:**

- Menu
- Search
- Advanced (The below options will capture all shows close to name if you type partial name within time frame; it is just one example of many series you could generate.)
  - Genre-Any
  - Type-Any
  - Channel-Any
  - Title-You can put in entire name or partial name ( U shape on keyboard is spacebar)
  - Day-Any
  - From-12AM
  - To-12PM

### **To see previously recorded shows:**

- Menu
- Recorded
- My DVR, Recorded
- Press Ok
- Scroll to previous recorded show you would like to view, press ok
- Options available
  - Remove-Will remove this recording only
  - Start-Will play show
  - Cancel-Will exit from screen
  - Remove All-Will remove recorded shows
  - Resume-
  - Settings-Will show you the settings you set up when you originally recorded the show

## **Notes:**

**If you choose to watch a show that already has a recording option currently selected, you will have the option to remove that recording.**

**Auto tune, automatically switches to the channel for you when it is on.**

**When you are watching a show and you want to start recording it, you can either hit record or you can press pause and then play to start watching your programming again. Once you have started to record live tv you can, pause, rewind, fast forward and stop programming while watching the show.**

**When watching a recorded show if you rewind or fast forward through the show and you need to stop the programming to get up, press the pause button. When you return hit play. If you hit stop instead of pause, when you return and hit play it will take you all the way to the beginning of the recorded show.**

**\*\*Stop takes you out of recording\*\***

**\*\*Pause stops you in recording\*\***

**In the guide if there is a red dot next to the show that means there is already a recording set up.**

**It appears at this time, ad'l stb will only play and record shows and not any other function.**

**At this time when you record shows off of the additional set top box there appears to be inconsistencies in program choices.**

**The STB have an optical input which allow for surround sound hookup.**
